Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

EUROPA. By A. Vermast. Series: Aardrijkskunde. 200 pp. Maps, ills. I. Vanderpoorten, Ghent, 1912. Fr. 2. 9 x 6. [A new edition. The geography of Europe is described so as to give prominence to the causal elements underlying the scientific facts without departing from the popular form in which the book is written.]

PRINCIPLES OF PRUSSIAN ADMINISTRATION. By H. G. James. xiv and 309 pp. Index. Macmillan Co., New York, 1913. $1.50. 8 x 5½.

GENERAL

LE DRY-FARMING. Par John A. Widtsoe. Traduit de l'Anglais par Anne-Marie Bernard. 2nd edition. Series: Bibliothéque Agricole. xxxvi and 304 pp. Map, ills. Librairie Agricole de la Maison Rustique. Paris, 1912. Fr. 3.50. 7½ x 4½. [This translation of a well-known American work was published under the auspices of the "Government Général de l'Algérie" mainly because of the high value of the results of American practice as applicable to conditions existing in the French possessions of North Africa.]

GEOLOGISCHES WANDERBUCH. Von Karl G. Volk. Für mittlere und reife Schüler. 1. Teil. In series: Dr. Bastian Schmids naturwissenschaftliche Schülerbibliothek. 294 pp. Ills., index. B. G. Teubner, Leipzig, 1911. Mk. 4. 8 x 5½. [A useful companion for young field geologists.]

PROCEEDINGS OF THE SOCIETY OF ANTIQUARIES OF LONDON. Session 1911–1912. 2nd Series, Vol. XXIV. vi and 352 pp. Map, ills., index. Soc. of Antiquaries, Oxford, 1912 (?). 9 x 6.

ARCHAEOLOGIA OR MISCELLANEOUS TRACTS RELATING TO ANTIQUITY. Vol. LXIII. 2nd Series: Vol. XIII. xvi and 354 pp. Maps, ills., index. Soc. of Antiquaries, Oxford, 1912. 12 x 10. [Papers mainly devoted to researches in the British Isles.]

OBED HUSSEY. Edited by F. L. Greeno. Ills. 228 pp. Rochester, N. Y., 1912. 8 x 5.

NEW MAPS

EDITED BY THE ASSISTANT EDITOR

For system of listing maps see p. 75 of this volume

MAPS ISSUED BY UNITED STATES GOVERNMENT BUREAUS

U. S. GEOLOGICAL SURVEY

Topographic Sheets
(Including Combined and Special Topographic Maps)

CALIFORNIA. (a) Chico Landing Quadrangle. Surveyed in 1904 and 1910. 1:31,680. 39°45′0″ - 39°37′30″ N.; 122°0′0″ - 121°52′30″ W. Contour interval 5 ft. Edition of Nov. 1912.

(b) Durham Quad. Surveyed in 1910. 1:31,680. 39°45′0″ - 39°37′30″ N.; 121°52′30″ - 121°45′0″ W. Interval 5 ft. Edit. of Nov. 1912.

(c) Marysville Buttes Quad. Surveyed in 1909–1911. 1:31,680. 39°15′0″ - 39°7′30″ N.; 121°52′30″ - 121°45′0″ W. Interval 5 ft., between broken contours, 500 ft. Edit. of Nov. 1912.

(d) Palermo Quad. Surveyed in 1910. 1:31,680. 39°30′0″ - 39°22′30″ N.; 121°37′30″ - 121°30′0″ W. Interval 5 ft. Edit. of Dec. 1912.

(e) Pennington Quad. Surveyed in 1908–1910. 1:31,680. 39°22′30″ - 39° 15′0″ N.; 121°52′30″ - 121°45′0″ W. Interval 5 ft. [between broken contours, 500 ft.]. Edit. of Nov. 1912.

[Maps (a) to (e) belong to the two-inches-to-the-mile sheets of the Sacramento Valley. On map (b) town of Chico shown, affording, because of the relatively large scale, a more than usually useful representation of the built-up area of a town. On maps (c) and (e) the use of a 5-foot contour interval below, and of a 500-foot interval above 300 ft. elevation (an indication omitted from the legend on map (e)) makes the Marysville Buttes appear to be flat-topped mesas.]

(f) Salinas Quad. Surveyed in 1908–1910. 1:62,500. 36°45′ - 36°30′ N.; 121°45′ - 121°30′ W. Interval 50 ft. Edit. of Oct. 1912.

[Woods shown in green.]
